

ID: week13

name:

neptun:

Define a Btree_elem for Binary tree to store a static string with 20 characters!

ID: week13

name:

neptun:

Define a Btree_elem for Binary tree to store one integer and one float and rename it to Btree!

ID: week13

name:

neptun:

Define a Btree_elem for Binary tree to store two floats and rename it to Btree!

ID: week13

name:

neptun:

Define a Btree_elem for Binary tree to store a dynamic string!

ID: week13

name:

neptun:

Define a Btree_elem for Binary tree to store two integers and rename it to Btree!

ID: week13

name:

neptun:

Define a Btree_elem for Binary tree to store a static string with 20 characters!

ID: week13

name:

neptun:

Define a Btree_elem for Binary tree to store a static string with 20 characters!
